EMAIL ARCHIVING TO SUIT YOU

A solution that takes email efficiency to the next level

ArcTitan is a flexible, scalable, high performance email archiving solution.

Integrating seamlessly with all leading email applications, ArcTitan is available as a cloud-based solution. ArcTitan provides a safe, secure, and reliable end user experience.

ArcTitan combines a secure, real-time copy of every message received by the mail server with super-fast, user-friendly search screens, and puts you in charge of your email. ArcTitan saves you time and money, and keeps you compliant. ArcTitan is a productivity tool that benefits everyone in the organisation.

“

Everyone I have spoken to uses ArcTitan and loves it!”

Jason Forrest,
Brook Hill School

“

I'd absolutely recommend ArcTitan”

Steve Allen,
Silchester

“

ArcTitan comes out on top, hands down”

David Chatterton,
South Liverpool Homes

ArcTitan saves you time and money

- » Searches millions of emails in seconds
- » Slashes time and cost of eDiscovery, SAR and other formal searches
- » Limits IT Department involvement in finding lost email
- » Assists migration to new mail servers
- » Reduces server management costs
- » Cuts premium storage costs on the mail server
- » Enables email usage even when the mail server is down

ArcTitan keeps you compliant

- » Acts as a “black box flight recorder” for email
- » ArcTitan emails are tamper-evident and court-admissible
- » Searches quickly and accurately - perfect for eDiscovery
- » Meets sector-specific regulations, data privacy & human rights legislation
- » Facilitates policy-based access rights and role-based access
- » Maintains tamper-evident audit trail

ArcTitan helps you find your email

- » Empowers end users with intuitive, super-fast search screens
- » Seamless integration with Outlook
- » Combines searches for more accurate and refined searches
- » Replicates your Outlook email folders within the ArcTitan interface
- » Accesses emails remotely via ArcTitan Mobile App (iOS, Android, Windows & Blackberry)

Boost Employee productivity

Eliminate PST files

Increase Mail server efficiency

Superior Findability

Complies with eDiscovery

ArcTitan at a Glance

EMAIL ARCHIVING TO SUIT YOU

A solution that takes email efficiency to the next level

Key Benefits:

Reduce Premium Storage Footprint on Mail Server:

ArcTitan compresses, deduplicates and encrypts email, and archives it on a separate server. Typical saving on premium storage space can be as much as 75%

Mobile Access - Take ArcTitan Wherever you Go

The same great user experience whether you're in your home office, a business meeting in Vienna or backpacking in the Amazon...All the benefits of email archiving, anywhere, anytime.

Slash Time Searching for Lost Email

ArcTitan empowers end users to retrieve their own lost email from archive, saving time and reducing requests for help from IT Department. Reduce support calls by 25% by limiting formal and other search tasks

Assist Dispute Resolution & Reputation Management:

ArcTitan keeps a secure, real-time copy of every email received by the mail server, with tamper-evident audit trail. Evidential-quality data may encourage out-of-court settlement.

Superior Findability:

ArcTitan's super-fast, delegated search and intuitive search screens put every email sent or received in your mailbox at your fingertips, findable in seconds. Typically saves 80% of time taken for company-wide searches

Streamline Mail Server Migration:

ArcTitan provides data capture and import utilities that manage legacy email data, reducing the volume of data to be migrated. Cut time and cost associated with migration by as much as 70%.

Eliminate PST Files:

ArcTitan assimilates legacy PST files into a single, searchable, secure archive. Organisations have saved more than 1000 support calls every year

Cut Cost of Mail Server Maintenance:

ArcTitan cuts time spent on routine back up and maintenance with archive and mirror, plus built-in selective restore functionality. Routine maintenance programs can be up to 50% faster.
